APPENDIX A

Stocking data

Stocking data were obtained from the fisheries management organizations of each lake: for Lake Aiguebelette, the data was retrieved from the local recreational fishermen association (AAPPMA Aiguebelette); for the French territory of Lake Geneva, Lake Bourget, and Lake Annecy, it was obtained from the Haute-Savoie and Savoie Direction Départementale du Territoire (DDT) and from each respective fisheries services of the Swiss cantons (Genève, Vaud, Neuchâtel, and Fribourg) bordering the Lakes Geneva and Neuchâtel.
